

FC recently attended the State FFA Leadership Conference held at Veterans Memorial Auditorium, April 15-17, 2009.

FC was proud to sponsor the Emerging Agricultural Technology Proficiency Award through the Iowa FFA Foundation. FC also hosted a booth at the conference. FFA students were encouraged to stop by and play a trivia game. The trivia game featured questions on FFA, FC, agriculture, and random facts. Various prizes were also given away every hour to those students lucky enough to have their names drawn. Two of the lucky winners are pictured to the right.

FC congratulates all the winners and thanks all those who stopped by the FC booth. Supporting students who wish to pursue agricultural careers and hopefully return to the rural community to keep America's agriculture future strong is a high priority at FC.
